Welcome to Avenal State Prison. This prison is a Level II Institution with six (6) separate Facilities.

This manual has been developed to provide the newly arrived inmates with valuable information concerning programs and activities available at this institution. You are expected to review the contents of this booklet. If you do not understand the general rules and procedures, you must secure assistance from your Counselor, Building Officer, or any other Program Staff. You will be held responsible and accountable for the contents of this booklet and all other Departmental Rules and Regulations.

Within fourteen (14) days of arrival at Avenal State Prison, the Facility Program Sergeant or designee will give you an orientation class. Steps will be taken to ensure you understand the contents of this manual. Specific questions regarding the operation of this institution can be answered at this time.
INSTITUTIONAL POLICY PROHIBITS THE FOLLOWING:

FLAGGING: Display of colors, etc. that denote or imply gang affiliation.

SAGGING: Wearing clothing in a manner other than it was designed for may also be interpreted as flagging. Pants will be worn as they were designed to be.

GROUPING: No more than three (3) inmates will be walking, sitting or standing together at one location. Religious activities performed on the yard, where more than five inmates are together, are permitted with prior approval of facility staff. More than three inmates sitting on the bleachers is acceptable during sporting events or when designated as a waiting area (i.e. Classification).

OUT OF BOUNDS: All inmates will stay out of all "OUT OF BOUNDS" areas marked by red lines or yellow tape unless instructed by Staff. This includes Housing Units if you don't live there.

RUNNING: No running on the yard except during sporting events. Jogging is permitted on the black top only.

ESCAPE: The primary objectives of the correctional institutions are to protect the public by safely keeping person(s) committed to the custody of the Director of Corrections, and to afford such persons with every reasonable opportunity and encouragement to participate in rehabilitative activities.

This institution is equipped with a high voltage electrical fence capable of inflicting lethal injury upon contact. An escape attempt is a felony and will be prosecuted in accordance with the law.

COUNTS: Every institution shall maintain a system to account, at all times, for inmates under their jurisdiction. Five (5) counts are performed at this institution. They are: 0045 hours, 0245 hours, 0445 hours, 1645 hours and 2145 hours. During all counts, inmates shall be sitting on their assigned bunk or designated area as instructed by custody staff and/or their work supervisor.

DPW inmates, and those with verified case-by-case medical exceptions to standing, are not required to stand for count. They will be required to sit on their bed or in a wheelchair next to their assigned bed.

Count Time is announced over the public address system in the housing units and, as needed for DPP inmates, a red flashing count light and an erase board located by the staff podium. All movement will cease during count time. You are not to leave your designated counting location for any purpose until count is cleared and you are properly released. If you are not in your designated area during count, or you attempt to delay or disrupt the count procedures, you will be subject to disciplinary action. Making noise or talking during count will not be tolerated and is subject to disciplinary action.

NOTE: Living/breathing body flesh must be visible to staff during count. In the event of an Emergency Count, all inmates shall return to their assigned housing, except in a medical
emergency or other exception specifically authorized by the official in charge.

**ALARMS:** When an alarm is activated, a blue light will flash and a horn will sound. Inmates must get out of the way of responding staff and away from doorways and gates. All inmates MUST take a SITTING POSITION immediately and cease all movement. If the situation mandates, staff may instruct all inmates to assume a prone position (laying on their stomach). DPW inmates shall stay seated in their wheelchair but must stop moving immediately. Some inmates with certain physical limitations may be unable to assume a “seated” position or remain in a seated position on the ground due to medical condition. These inmates will be identified and issued a Mobility Impaired Vest (M.I.) so that responding staff can easily recognize them during an emergency. Inmates wearing a M.I. Vest are not required to attain a seated position. These inmates are still required to follow staff instructions to remain where they are, or to move to an alternate location.

**IDENTIFICATION CARDS:** Upon arrival, Receiving and Release (R&R) Staff will issue each inmate an Identification Card (ID). ID cards must be carried on the inmate's person at all times. An inmate must surrender his ID card or cards at the request of any employee. Unless a card is being officially recalled, the card(s) will be promptly returned to the inmate when staff's use of the card has been accomplished.

An inmate may be charged for replacement of a deliberately mutilated, lost or destroyed card in accordance with Title 15, Section 3011. An inmate may also be charged for the replacement of a card if a physical change in the inmate's appearance is a matter of his own choice and the change occurs within six months of the issuance of a new replacement card. Replacement of lost/damaged card is $8.00 per Card. If your appearance has changed or has been modified, the cost for a new ID will be $8.00 for the ID Card. This cost will be deducted from your Trust Account.

Privileges are afforded according to the designated work group of the inmate. Refer to Title 15, Section 3044, Inmate Work and Training Incentive Groups, for more information.

**PROGRESSIVE DISCIPLINE:** Any inmate who violates department policies and procedures will be subject to disciplinary action consistent with the degree of rule violated. DISABILITY PLACEMENT PROGRAM (DPP)

POLICY: It is the policy of CDCR to provide access to its activities, services, and programs to inmates/parolees with disabilities, with or without reasonable accommodation, consistent with legitimate penological interests. No qualified inmate or parolee with a disability, as defined in Title 42 of the United States Code, Section 12102, shall, because of that disability, be excluded from participation in or denied the benefits of activities, services, and programs of the Department or be subjected to discrimination.

ADA DEFINITIONS

QUALIFIED INMATE/PAROLEE: Has permanent physical or mental impairment, which limits ability to perform a major life activity.

PERMANENT DISABILITY: An impairment or disability not expected to improve within six months.

MAJOR LIFE ACTIVITY: Basic activity performed by an average person without difficulty such as caring for self, performing manual tasks, sitting, standing, walking, seeing, hearing, speaking, breathing, learning, and working. In determining whether an individual is limited in a major life activity, the following must be considered:

The nature and severity of the impairment, the duration or expected duration of the impairment, and the permanent or long-term impact, or the expected permanent or long-term impact resulting from the impairment.

CDCR will continue to use existing delivery systems, such as Health Care Services, Population Management, and competency based education systems to address the housing, program, and placement needs of inmates with disabilities. Inmates with multiple permanent disabilities, whose condition is so severe as to impact placement, shall be evaluated on a case-by-case basis to determine appropriate placement.
An inmate with a permanent impairment (the severity of which impacts placement) expected to last six months or longer, will be identified as one of the following categories:

**DPW:** Full time wheelchair user: Inmate or parolee requires wheelchair accessible housing and path of travel.

**DPM:** Mobility impairment: With or without Assistive Device (wheelchair shall not be prescribed). Orthopedic, neurological or medical conditions that substantially limits ambulation; i.e., cannot walk 100 yards on a level surface without a pause. Requires lower bunk, no triple bunk, and no stairs in path of travel.

**DPO:** Intermittent wheelchair user: Inmate requires lower bunk wheelchair accessible path of travel does not require accessible housing. Inmate with a DPP designation not listed above such as DPV, DPS, and DPH etc. shall be referred to appropriate housing via the classification process.

**DEVELOPMENTAL DISABILITY** includes substantial limitations in adaptive functioning in one or more of the following areas:
- self care
- receptive and expressive language
- learning
- mobility
- self-direction
- capacity for independent living
- economic self-sufficiency
- Other needs that require a combination and sequence of special interdisciplinary and/or generic treatment, or other services which are of lifelong or extended duration, and are individually planned and coordinated.

Adaptive functioning refers to an inmate's ability to perform activities of daily living and cope with everyday interactions and events.

All inmates will be screened for developmental disability using a variety of tools to identify, verify, and place identified inmates in appropriate settings. A three-phase process, including clinical judgment, will be used to identify those inmates who fit the diagnostic criteria for developmental disability.

**LEARNING DISABILITIES:** Learning Disabilities (LD) are specific neurological disorders that may substantially limit life activities of reading, writing, spelling, performing mathematical calculations, or information processing.

Certain impairments in ability to communicate verbally, both expressively and receptively, may be attributed to a LD. It is the responsibility of CDCR staff to try to ensure effective communication when an inmate requests a reasonable accommodation, especially when it involves due process or clinical encounters.

**REASONABLE ACCOMMODATION:** Avenal State Prison shall provide reasonable
accommodations or modifications for known physical or mental disabilities of a qualified inmate while housed at Avenal State Prison. Examples of reasonable accommodations include providing inmate/staff assistance, interpreters, printed materials such as the CCR and ARP in accessible formats, sign language interpreters for medical encounters and due process events and BPH hearings, etc., special equipment / accommodations (such as readers, text magnifiers, large print materials, specialized library equipment, sound amplification devices, or Braille materials, etc.); or modifying work/program schedules.

When necessary, staff may provide personal notification or written notices for visits, ducats, or other announcements.

Wheelchair users may request the assistance of an inmate aide (wheelchair pusher). This request may be made verbally to the Housing Unit Officers.

Inmates/parolees with developmental disabilities may require additional supervision/training, oral rather than written tests, lower production expectations, expanded time frames for completion of projects, etc.

An inmate/parolee with a disability may request an accommodation or grieve alleged discrimination through the CDC Form 1824 grievance process. Forms and staff assistance to use this process effectively shall be provided to all qualifying inmates/parolees.

A request for accommodation may be denied if it: poses a direct threat of substantial harm to the health or safety of the inmate, staff or the public; imposes an undue financial or administrative burden on the agency; or fundamentally alters the nature of the service, program, or activity. The Warden or Chief Executive Officer will make the determination that an accommodation would result in an undue burden or fundamental alteration. A request for accommodation may also be denied if another accommodation provides equally effective access to the program, service, or activity.

ACADEMIC AND VOCATION PROGRAMS: Every able-bodied person committed to the custody of the Director of Corrections and Rehabilitation is subject to an obligation to work as assigned by department staff and by personnel of other agencies to whom the inmate's custody and supervision may be delegated. The Classification Committee will assign each inmate to an appropriate work, academic, vocation or other institutional program waiting list.

Upon your assignment to education at Avenal State Prison (ASP), you will be required to take a Test of Adult Basic Education (TABE). This test must be taken even if an inmate has been tested at another institution. The California Department of Corrections and Rehabilitation requires all inmates who test below a 9.0 reading Grade Point Level (GPL) to be enrolled in an education program.

All education programs are available to disabled inmates in the Disability Placement Program (DPP). Qualified and eligible DPP inmates, who request participation, will be assessed on a case-by-case basis to determine if, with or without reasonable accommodation, they have the necessary abilities to be able to perform the essential functions of the assignment.

ASP has a variety of Institutional Services (IS) assignments. These include Culinary, Yard Crew, Dorm Porter, Clerk, Plant Operations, etc.
The Prison Industry Authority (PIA) waiting list includes Metal Fabrication, Laundry, Furniture Factory, etc.

The Outside Services (OS) requires Minimum A or B Custody, and includes assignments such as Firehouse, Warehouse, Outside Maintenance and Outside Prison Industries.

**FACILITY D (SNY) AND FACILITY F (GP) SUBSTANCE ABUSE PROGRAM (SAP):**
SAP is designed to establish in-prison substance abuse services with a fully integrated community-based services system. All SAP inmates participate in 5 months of programming in an intense, highly structured, therapeutic community while incarcerated.

The continuing care component of each SAP completes the model and establishes a system that is fully integrated with the community. A smooth transition is critical to the successful reintegration of SAP participants into society.

**CLASSIFICATION:**
A Classification Committee may consider inmates who have a documented history of substance abuse for placement in SAP. Placement may be voluntary or involuntary. Inmates who volunteer for participation in SAP shall be given priority placement.

**SUBSTANCE PROGRAM CRITERIA:**
- The inmate must have a history of substance abuse (drug or alcohol) as documented in his Central File.
- Classification score between 19 and 27.
- Release date 7-24 months (A-1) to be placed on the waiting list.
- Not housed in Protective Housing Unit within the last year.
- No SHU term for assaultive behavior (involving inmates or staff) or weapon possession within the last year or other rule violations classified as Division A-1 offenses per CCR Title 15 section 3323b.
- Not a validated member (or associate) of a prison gang as certified by a Criminal Activities Coordinator.
- No active or potential USINS hold. No active or potential felony holds from any jurisdiction which may result in additional incarceration following the inmate's release date.
- No convictions for PC 288a.

**OTHER CONSIDERATIONS:**
- Inmates who are participating in the program, whose classification score adjustment at Annual Review places them at another classification level, shall be reviewed first for override consideration to remain in the ASP SAP.
- Correctional Case Management System (CCCMS) inmates qualify for the SAP program.

**TRANSITIONAL PLANNING PROCESS:**
- The transitional planning process begins as soon as the inmate enters the SAP program and within 150 days prior to parole in order to assist the inmate in preparing for reintegration into the community.
- During this phase, activities begin to focus intensively on developing the Community
Services Plan (CSP CDC form 1868).

- The SAP contractor, in coordination with the SAP Parole Services Analyst and the inmate, develops the CDC form 1868, for each SAP inmate. It defines the community-based goals for the participant and indicates the specific location of the community program available to the SAP parolee upon his release from custody.

If you have any questions or would like to volunteer for the program, you may contact R, Tuman, Correctional Counselor III, or S. Dias, Parole Services Analyst, at Avenal State Prison via Inmate Request for Interview form GA-22.

OFFENDER EMPLOYMENT CONTINUUM (O.E.C.): The Offender Employment Continuum (O.E.C.) workshop is an intensive three-week/90 hour in-prison program, based on building a positive community along with employment training. Additionally, we will forward completed assessments/employment plans to an Employment Specialist in the area of parole to further assist the parolee in his transition process. Participants must be within 45-120 days of their release to qualify for this voluntary program.

INMATE ACCESS TELEPHONES: All Housing Units are equipped with inmate accessible telephones. Inmates may place collect telephone calls to persons outside the facility at designated times and on designated telephones as set forth in local procedures. Telephone call sign-ups are conducted during Third Watch. Unauthorized use of the telephone will be subject to disciplinary action. All telephone calls must be made collect. Time slots are for fifteen (15) minutes and 40 minutes for qualified Telephone Typewriter (TTY) users. Inmate telephones are equipped with volume control handsets. All telephones calls are subject to monitoring without notice.

LIBRARY: Library services are provided for your benefit. Avenal State Prison provides both a Recreational Library and a Central Law Library on each facility. Library hours for both are posted on the facilities Recreational Library window. The Recreational Library does provide some legal services, including access to the Gilmore Collection via computer and access to legal forms. The Central Law Library and Recreational Libraries have assigned inmate scribes/readers available to those inmates that require assistance with reading or writing. Communicate with the Librarians for details regarding this service. For services not available in the Recreational Library, a ducat to the Central Law Library is required. To obtain a ducat for the Law Library, you must submit an Inmate Request for Interview form to the Law Library, stating the specific date and time you desire to be ducated. If you fail to report to the Law Library when ducated, you may be subject to disciplinary action.

**VISITING:** The value of visiting as a means to establish and maintain meaningful family and community relationships is recognized and encouraged. Inmates have the right to have personal visits with their approved visitor(s) while confined in the Institutions and Facilities of the Department. The right to have visits will not be denied except as is necessary for the reasonable security of the institution and the safety of person(s).

Visitors will be processed in the Visitor Processing Unit, which is located near the Route 33 entrance to the institution. Visitors will be escorted/transported to the appropriate visiting area. All inmates and their visitors must follow all the institution visiting rules. For general visiting policy refer to California Code of Regulation, Title 15, Section 3170.

Visitors entering ASP are subject to a search of their person(s), vehicle and the articles of property in their possession. Visitors may leave the prison grounds rather than submit to a search of their person, vehicle or property. However, refusal to submit to the search will result in the denial of visitation for that day. Visitors may not elect to leave the prison grounds rather than submit to a search when institution Officials possess a court-issued search warrant or the cause for a search warrant arises while the visitor is on the Institution grounds.

Adult visitors must be approved before being permitted to visit. To obtain approval to visit, a prospective visitor shall complete and sign a Visiting Questionnaire (CDC Form 106). The inmate can obtain this Form from the Floor Officer. The inmate is responsible for mailing the form to his prospective visitors. The applicant shall return the completed form via US mail to the institution. Inmate Visiting Forms shall not be accepted from inmates. Inmates are responsible to notify their approved visitors and advise them of the Visitors Information Line, 1-800-374-8474, for additional information pertaining to visiting. Valley Fever
(Read About It)
What is it?

Flu/cold-like symptoms in the Summer or Autumn months? Live in the Central Valley? Does your work stir up the soil? If all three are true, you may want to read on...

Valley Fever (coccidioidomycosis) is an infection caused by a fungus and may appear as an acute infection, chronic disease or may spread (disseminate) to other parts of the body.

What are the symptoms?
Over half of the people who are infected will NOT have symptoms and will NOT need treatment. Symptoms can include fever, chills, aching joints/muscles, night sweats fatigue, cough, and headaches. Symptoms vary from being mild, like a slight cold, to severe flu-like symptoms. When the fungus spreads, the skin is the most common area affected. Pimple-like bumps may be visible on the skin. The second most common area affected are the joints and/or bones resulting in painful joints. In severe cases, the fungus may spread, resulting in cocci meningitis. Symptoms of meningitis may include severe, persistent headaches nausea/vomiting, disorientation, inability to think clearly, and/or loss of consciousness.

How do you get it?
When conditions are right, the fungus may grow and spread through the air (dust) when the soil is disturbed. The fungus may then be inhaled, in the Central Valley. This is more likely to occur during the dry months from June to November. Valley Fever is NOT spread from one person to another.

Do you have it?
A blood test may be done to determine if you have been exposed to Valley Fever. Positive results do NOT mean you will have the symptoms. X-Rays and bone scans can determine if the infection has spread to the bones or joints. A spinal tap can determine if the central nervous system has been affected. Consult your health care provider if you have concerns or similar symptoms.

What is the treatment?
Flu/cold-like symptoms may be treated with over-the-counter medications. Anti-fungal medications may have to be prescribed by your health care provider.

How to avoid it:
Stay indoors on windy days, wear a mask, or wet the soil before digging.

Who to contact?
Always contact your health care provider when you have concerns and/or questions regarding your health. Inmate/Patients should use CDC Form 7362 to request health care services.
