REVISED 8/25/2011
IOWA CODE defines sexual assault/abuse as:

Any sex act between persons when the act is done by force or against the will of the other, or if the other person consents due to the threats of violence against any person, or if the person is under the influence of a drug inducing sleep or is otherwise in a state of unconsciousness.

IF YOU HAVE BEEN RECENTLY ASSAULTED:

- Get to a safe place
- Report the attack to a staff member: The longer you wait to report the attack the more difficult it is to obtain the evidence necessary for a criminal and/or administrative investigation
- Request immediate medical attention
  You may have serious injuries that you are not aware of, and any sexual contact can expose you to sexually transmitted diseases.
- Do not shower, brush your teeth, use the restroom, or change your clothes.
  You may destroy important evidence.

If you are sexually assaulted, you have OPTIONS!

- Report the incident to a trusted staff member
- Send a KIOSK message to the ADMINISTRATION mailbox or the SHIFT SUPERVISOR mailbox.
- Use the institutional grievance process
- Send a letter to the Iowa Ombudsman Office
  Office of Citizens' Aide/Ombudsman

**Prison Sexual Assault**

If you or someone you know has been sexually assaulted in confinement, you're not alone.

Sexual abuse and sexual assault are alarmingly common behind bars. In male prisons, one out of every five offenders has been sexually assaulted. Rates for women vary, however, in one facility 27% of women reported a pressured or forced sexual incident.

**FACTS**

- One out of every 140 people in the United States is now behind bars, the highest rate of any nation.
- Rates of HIV are five to ten times as high inside of prison as outside.
- Sexual assault in prison is considered cruel and unusual punishment according to the Eighth Amendment to the U.S. Constitution and is a violation of international human rights laws that meets the definition of torture.
- Many survivors of prisoner sexual assault blame themselves. Male survivors often feel that they have been stripped of their manhood. Gay survivors may blame their sexual orientation for the sexual assault. Many offenders consent to sexual acts because they feel they have no choice, or to avoid violence and the threat of violence. This is still sexual assault/abuse and those who endure these incidents may experience the symptoms of trauma described in this brochure.

**If you are a survivor...**

of sexual assault, you have suffered a traumatic experience. Survivors experience feelings of:

- Vulnerability
- Powerlessness
- Loss of masculinity
- Blame
- Fear
- Sadness
- Shame
- Rage/anger
- Confusion
- Self-doubt

**Part of the Trauma...**

the survivor may experience includes:

- Nightmares
- Insomnia
- Anxiety
- Frequent crying
- Eating disorders
- Lack of concentration
- Sexual dysfunction or hyper-sexuality
- Antisocial and criminal behavior
- Disturbing sexual fantasies
- Substance abuse
- Phobias
- Lifestyle disorganization

**Coping Skills: Ideas to help begin the healing**

- Write in a journal
- Exercise
- Poetry
- Music
- Reading
- Talk/Write to a trusted friend

**Safety Guidelines to Consider**

- **Trust your instincts.** Be aware of situations that make you feel uncomfortable. If it feels wrong, LEAVE.
- **Body language.** You are judged within three seconds of someone first seeing you. Walk with certainty, head up high. Learn good posture.
- **Don't ask for things.** Some offenders have access to things you may need or want, however, many seek favors of some kind in return. Placing yourself in debt may lead to a request to an expectation of sexual favors for repayment.
- **Avoid high-risk places.** There are blind spots in every facility, on the yard and in the units. These are places where it is difficult for the officers to see. Learn these places and avoid them.

**KEY Reentry & Release ISSUES**

**Detainers**

You should address detainer issues through mail correspondence and through your phone account, unless there is an emergency/time sensitive issue and staff is notified by the litigating authority.

**Release Plan**

You should start working now to develop a release plan that will give you the best chance of success. Your plan will be denied if it is to the victim of your crime or if the person is found to be under correctional supervision (prior approval will be necessary for persons under correctional supervision). Typically, family is the preferred parole plan but other positive influences will be considered. The parole plan verification, confirmed employment and letters of support should be sent to your Counselor.

Community resources can be found on the OffNet computer system. Community Resources and Work Release are both areas you will be able to access for additional information on available resources in the area you will be releasing to.

All offenders shall be required to complete Reentry Workbook group which shall cover a variety of reentry topics such as the board of parole process, appropriate parole planning, medical and mental health funding upon release, the role of IWD at NCCF, and other information that will increase the chance of successful reentry to the community.

Updated 10/2012; 8/2011
Release Transportation

When you receive a release and your release has been scheduled, you will be asked if you have someone to pick you up (private transportation). If not, NCCF will make transportation arrangements for you using the bus system. If you do not have private transportation, your release date may be pushed back to make allowances for the bus system. You will want to keep enough money on your telephone account to contact the person who will pick you up to make arrangements. You should also have them listed on your telephone account. This will speed up the release process.

Bus transportation shall only be made available on Tuesday or Wednesday, per the posted schedule. Please refer to the schedule to determine when the bus will be going to your community and plan accordingly. Note that if you are going to southeastern Iowa, such as Burlington, Oskaloosa, or Ottumwa, you will be transported by IMCC and in full restraints if you do not have private transportation.
Severe Weather Plan

It is the policy of IDOC and the North Central Correctional Facility to ensure that public safety, staff safety, offender safety, and institutional security are maintained in the event of a tornado or natural disaster that potentially or adversely affects the institution. In the event of a tornado or natural disaster you will be directed to follow the instructions of the staff member assigned to your living unit, as follows:

Units DN & DS

Unit D offenders shall remain in their assigned room, moving to the center of their room, away from the window, covering their heads with the mattress, bedding, or pillows to protect their heads from flying debris.

Await further instructions from Unit Officer or Staff Assigned.
Offender Fire Procedures/Emergency Evacuation
North Central Correctional Facility

It is the policy and practice of the North Central Correctional Facility (NCCF) to ensure a safe environment for offenders housed here. If offenders are notified that their housing unit is affected they shall report to an emergency location as directed by staff.
5. Offenders shall stay away from all firefighting apparatuses and fire personnel responding to the institution's fire alarm.
6. Institutional count procedures will be implemented.
