FOREWORD
The goal of the New Jersey Department of Corrections Administrative Close Supervision Units (ACSU) is to ensure that all inmates assigned to an ACSU are provided with the necessary care, discipline, training and treatment needed to prepare them for reintegration into the general population of the correctional facility. Inmates are assigned to ACSU as a result of being found guilty of one or more inmate disciplinary infraction(s) in which the sanction has resulted in administrative segregation time requiring an inmate’s removal from the general population.

The ACSU Administrative Segregation Inmate Handbook has been developed to provide inmates with correctional facility rules and regulations, and information about services and programs. It is important that inmates are familiar with the details of this handbook and have a clear understanding of the contents. Inmates are urged to seek assistance from correctional facility staff in understanding any portion of this handbook with which they have difficulty comprehending. All inmates assigned to ACSU under the jurisdiction of the Division of Operations within the New Jersey Department of Corrections are subject to the rules and regulations set forth in the handbook. This handbook supplements the ACSU parent facility's inmate handbook and the New Jersey Department of Corrections Handbook on Discipline for Inmates. Should a conflict exist between this handbook and the inmate handbook of the parent facility, inmates assigned to the ACSU shall be subject to the rules and regulations set forth in the ACSU handbook.

Inmates are assigned to ACSU in accordance with the laws of the State of New Jersey and pursuant to the rules of New Jersey Administrative Code, Title 10A. Department of Corrections personnel have been charged with the responsibility of maintaining the safe, secure and orderly operation of all ACSU units. These objectives are obtained by maintaining sanitary living conditions, providing fair and impartial inmate treatment and offering inmates the opportunity for self-improvement. Inmates are expected to conduct themselves in a mature, responsible manner and to adhere to all rules, regulations, policies, procedures, orders and administrative decisions of the New Jersey Department of Corrections and the appropriate correctional facility. Inmates are encouraged to use their time constructively to prepare for reintegration back into the general population and demonstrate behavior, which shows that they can conform to the rules and regulations of the department and the correctional facility.

The rules set forth in this ACSU handbook represent those rules effective on the date of publication and do not include amendments or repeals subsequent to the publication date. Additionally, this handbook supersedes all ACSU handbooks promulgated prior to the publication date of this handbook. Changes affecting the information contained in this handbook shall be provided to the ACSU inmate population in writing and as addenda for inmates to maintain their handbook.

SCOPE
The information in this handbook applies to every state-sentenced inmate and special housing inmate assigned to an ACSU under the jurisdiction of the Division of Operations within the New Jersey Department of Corrections.

ADMINISTRATIVE CLOSE SUPERVISION UNIT PLACEMENT
Inmates from any Department of Corrections facility or any other departmental program are subject to placement in an ACSU. This is a result of an inmate being found guilty of one or more serious disciplinary infractions or a series of infractions that have resulted in a finding of guilt at a disciplinary hearing(s). Hearings are held in accordance with the guidelines as set forth in the New Jersey Administrative Code, 10A:4, Inmate Discipline and in which a sanction has been imposed that includes Administrative Segregation. Inmates assigned to ACSU are closely monitored by a team of custody and civilian staff in a structured and controlled close custody environment.

Whenever a Disciplinary Hearing Officer imposes a sanction which includes Administrative Segregation, the administrative segregation part of the sanction shall be referred by the Disciplinary Hearing Officer to the Institutional Classification Committee (I.C.C.) for review at the Committee’s next regularly scheduled meeting. In considering the sanction, the I.C.C. shall consider any relevant factors including, but not limited to:

1. The circumstances and gravity of the disciplinary infraction;
2. The reason(s) given by the Disciplinary Hearing Officer for the sanction imposed;
3. The inmate’s previous disciplinary record; and
4. Whether other available dispositions are adequate to regulate the inmate’s behavior within acceptable limits.
Confirmation shall be made when the I.C.C. determines that the sanction is appropriate and within acceptable limits and where the inmate’s presence in the general population could pose a threat to the safe, secure and orderly operation of the correctional facility.

If an inmate receives a sanction that includes administrative segregation, the sanction first must be reviewed by the I.C.C. of the correctional facility in which the inmate is housed. If the sanction is confirmed, the referral for transfer to an ACSU shall be forwarded to the CRAF Intake Unit where the transfer shall be initiated.

Inmates serving administrative segregation time in an ACSU who are remanded to court, admitted to any medical or psychiatric facility, or sentenced to disciplinary detention time while serving an administrative segregation sanction shall have the number of days that accrued while remanded to court, hospitalized or served in disciplinary detention added to the expiration date of the sanction.

**SPECIAL ADMINISTRATIVE SEGREGATION REVIEW COMMITTEE**

The Special Administrative Segregation Review Committee (SASRC) is responsible for providing a bi-monthly review of the status of inmates, assigned to all ACSU units. The SASRC shall meet as frequently as is necessary to accomplish the business of the Committee with the meetings held at a facility designated by the members. The Committee shall review each inmate’s status level and progress. Once a sanction has been approved by the I.C.C. and reviewed by the SASRC the inmate shall be informed in writing of the decision with a projected release date.

An inmate who has been assigned to an ACSU for a period of 365 days or less shall have their case reviewed every 60 days by the Committee in order to evaluate the inmate’s behavior while in the unit. An inmate who has been assigned to ACSU for a period of more than 365 days shall have their case reviewed every 6 months, or more frequently if deemed necessary by the Committee in order to evaluate the inmate’s behavior while in the unit. The Committee review shall not necessitate an inmate’s presence although the Committee may, when it deems necessary, require the inmate to appear unless they refuse to appear. Inmates shall be informed in writing of SASRC decisions using Form ACSU-001 “SASRC Decision”.

Upon review of an inmate’s behavior, the SASRC may determine that the inmate should be released from administrative segregation status. The SASRC shall determine that an inmate should be released from administrative segregation status when it concludes that:

1. The initial need for placement in administrative segregation status no longer exists;
2. The inmate has clearly demonstrated by his/her behavior that he/she can and will adequately conform to the rules and regulations of correctional facilities;
3. The inmate’s presence in general population will not pose a threat to the safe, secure and orderly operation of a correctional facility;
4. The inmate’s presence in the general population prior to completion of the sanction as specified by the Disciplinary Hearing Officer would not adversely affect the goals of a correctional facility; or
5. The inmate has a history or presence of medical condition or mental illness and continued confinement in administrative segregation is likely to add to the inmate’s mental decompensation.

If the SASRC determines not to release an inmate from administrative segregation status, the inmate shall be so advised in writing that includes the reasons therefor. If the SASRC determines to release an inmate, it shall give the inmate written notice of the decision. The inmate shall be:

1. Released into the general population of the correctional facility in which they have been confined in the ACSU;
2. Referred to the Management Control Unit Review Committee (MCURC) for the Management Control Unit (MCU);
3. Referred for a protective custody hearing; or
4. Referred to the C.R.A.F. for possible transfer to a correctional facility determined by the SASRC.

The SASRC is authorized to assign inmates to an appropriate facility in accordance with the established guidelines. If an inmate is approved for transfer to general population and wishes to transfer to another correctional facility, the inmate shall submit a request to the I.C.C. for
consideration by the SASRC. The decision of the SASRC to grant or
deny the inmate’s request for transfer shall remain in force for a
minimum of sixty (60) days. The inmate shall receive written notice of
this decision.

ADMINISTRATIVE CLOSE SUPERVISION UNIT – TWO
LEVEL PROGRAM
The ACSU Two Level Program has been developed as the process by
which inmates serving administrative segregation sanctions in an ACSU
may be reintegrated into the department’s correctional facilities.
Progression through the two levels is contingent upon inmates adhering
to all rules, regulations, policies, procedures, orders and administrative
decisions of the New Jersey Department of Corrections and the
appropriate correctional facility. The two levels are defined as follows:

Level #1: Program entry level - possessions,
activities, privileges and amenities shall be most highly
restricted.

Level #2: An inmate’s possessions, activities, privileges and
amenities shall be less restricted than Level #1 but more
restricted than general population.

*See restrictions by level matrix on last page.

An inmate that receives an administrative segregation sanction shall
enter the ACSU at Program Level #1. The SASRC shall determine when,
and if, an inmate is Level I promoted to Level 2, maintained at a level or
demoted to a lower level. When reviewing an inmate, the SASRC shall
consider an inmate’s compliance with correctional facility rules and
regulations, especially any additional disciplinary infractions.

DISCIPLINARY PROGRAM
Inmates serving administrative segregation time in an ACSU are
expected to adhere to all New Jersey Department of Corrections rules,
regulations, policies, procedures, orders and administrative decisions.
Inmates failing to abide by such provisions shall be subject to the
appropriate disciplinary action. In order to assist inmates in complying
with the department disciplinary program, a Handbook on Discipline for
Inmates has been promulgated and disseminated to all inmates.

administrative decisions that are promulgated at all times. Failure to

Inmates may list up to ten (10) telephone numbers for family, friends and acquaintances, and two telephone numbers for attorneys. The system has the capacity to prevent third party calls, block calls to predetermined numbers, prevent call transfers, and prevent harassment of inter/intra-institutional persons and agencies. The telephone system has the capacity to identify the caller and call origination, and it provides an interactive acceptance or denial of calls by the receiving party. All called parties are advised that the calls are emanating from a departmental correctional facility. All telephone calls are limited to fifteen minutes with an advisory message activated thirty (30) seconds prior to the fifteen (15) minute expiration. Requests for emergency or legal telephone calls shall be made to the facility Social Services Department. If the call request is determined to be valid, a Social Worker or other designated staff member will arrange for the call to be made. Depending on the circumstances, inmates may be charged for emergency or legal telephone calls.
