

\*Anne Morrison Piehl and Margo Schlanger,  
\*Determinants of Civil Rights Filings in Federal District Court by Jail and Prison  
on Inmates,  
\*1 Journal of Empirical Legal Studies 79 (March 2004)  
\*On-Line appendix for non-tables, by Margo Schlanger

\*For the tables and regressions, see the part of this appendix that is in  
\*Stata. This part contains the work that supports the following statements:

\*\*\* Note 24: "The largest jails, holding one-third of jail inmates, are actually  
\*\*\* the same size or bigger than the prisons holding the corresponding  
\*\*\* portion of prison inmates."

\*\*\* Note 27: "On average, jails that participated in the most recent  
\*\*\* BJS Jail Census reported annual admissions of over 40 times  
\*\*\* their average daily populations; the median ratio of admissions to  
\*\*\* population was 23."

\*\*\* Note 29: According to the BJS censuses, the median ratio of  
\*\*\* admissions to population was 46 in 1983, 38 in 1988, 33 in  
\*\*\* 1993, and 23 in 1999.

\*\*\* Text accompanying note 36: "The amount of new inmate litigation  
\*\*\* in the six months following passage of the statute was down 24  
\*\*\* percent from the six months preceding, even before the courts had  
\*\*\* a chance to put the new rules fully into effect."

\*\*\* Note 48: "habeas filing rates per state prisoner (very few jail  
\*\*\* inmates file habeas actions, so they may safely be omitted from  
\*\*\* habeas litigation rates) decreased nearly every year from  
\*\*\* 1970 to 1994."

\*\*\* Note 24: Relative size of jails and prisons
